GREENSBORO TELEGRAM.

VOL. VII. NO. 115. GREENSBORO, N. C., SATURDAY, DECEMBER 15, 1900. Price Five Cents

BONDS BRING FINE PREMIUM

SEASONGOOD & MAYER BUY THEM ALL AT $112.17.

A Large Number of Bids Were Received and Financial Houses Were Anxious For the Bonds—Miss Fort Makes a Fine-Spirited Offer For One—Other Business Transacted.

Last night Greensboro sold three lumps of bonds aggregating $135,000, at the gratifying price of $112.17, the premium on the entire lot being $16,429.50. This price is perhaps the best ever brought by the same class of municipal bonds in North Carolina. The bids received showed that dealers were anxious for our paper, and every offer was made for the entire issue. The successful bidders were Seasongood & Mayer, of Cincinnati, the same firm which bought the previous batch of bonds to the amount of $35,000, issued for the erection of the city hall. There were more than ten bids received last night, but only ten were in proper form. These were read as follows:

Feeder, Holzman & Co., Cincinnati, Ohio	$ 108 50
Rudolph Kleyholte & Co., Cincinnati, Ohio	111.63
First National Bank, Columbus, Ohio	110.37
Trowbridge and Minor Co., Chicago	110.125
Lamprecpt Bros. Co., Cleveland, Ohio	110.50
N. W. Harris & Co., New York	109.07
Seasongood & Mayer, Cincinnati, Ohio	112.17
W. J. Hayes & Son, Cleveland, Ohio	110.40
Faison, Leach & Co., Chicago	111 75
Dennison, Pryor & Co., Cleveland, Ohio	110.27

When the bids were read the city clerks office was full of people, the officials, the representatives of the bond houses, and spectators. Alderman Denny moved that the bid of Seasongood & Mayer, the highest, be accepted, and when the motion was put all the members voted in the affirmative, all being present except Ellington and Phillips.

The certified checks of the other bidders, which had been handed in to the amount of 2 per cent. of their bids, were returned.

Miss Melville Fort offered a very patriotic bid for one bond, accompanied by check, the letter stating that she "hereby offered one per cent. more than any other bid for one bond." The gentleman who purchased the bonds said he would be glad to let her have one.

The other business transacted was slight. Mr. Denny, chairman of the street committee, made a verbal report and asked to be excused from further service in his position as it took too much of his time. The matter was referred to a special committee—Hunter, Boyd and Sergeant.

On motion of Mr. Hunter, permission was granted Prof. Grimsley to use the upper left hand corner room of the new city hall as a free public library room.

A vote of thanks was tendered Mayor Taylor for his service in so well negotiating the bond sale.

Mr. Hunter resigned as Chairman of the water committee, and Mr. Sergeant was appointed to the place. Mr. Sergeant resigned as chairman of the market committee and Mr. Hunter was appointed in his place.

Animal's Antics at Macon, Mo., Lead Negroes to Believe It Is the Devil.

Boys at Macon, Mo., the other day fed the contents of a box of seidlitz powders to a goat belonging to a family which had recently moved into the neighborhood. Then, taking it for granted that he was thirsty, they led "Billy" to a near-by trough and permitted him to drink heartily. Soon the fizzing began, and at last view the goat was tearing down the street toward the woods at a reckless pace. Some negroes living several miles out of town claim to have seen Old Nick himself, as they verily believed, rushing along the road in broad daylight. His majesty resembled an enormous goat, they said, but they recognized him as the devil because he was spitting fire and brimstone.

Watch Wheels.

By the aid of modern machinery one man can cut 10,000 watch wheels a day.

POLK MILLER LAST NIGHT.

The Old Time Negro Revived in an Evening With This Well Known Painter of His Character.

Polk Miller's entertainment at the Normal last night served to emphasize the changes that have taken place in our Southland His portrayal of the old negro, his mimicry and his banjo-playing were like voices from the past The old negro, like the "good ol' times befo' de war," is gone, and much that is picturesque, patient, pathetic and grand has gone with him Well it would be for the negroes and indirectly for the whites if the race had heeded his counsel instead of following the leadership of the "new-issue, free nigger" of our own time.

Mr. Miller abounds in anecdotes, character sketching and song. His banjo playing brought down the house. Whatever Bob Taylor and others may say, the banjo is king in the South. The deferential old negro man stood before the audience, and the faithful, loving, somewhat dictatorial, black mammy.

Mr. Miller was liberally applauded through the programme, but it is this sentiment about "Uncle Tom's Cabin which found heartiest sympathy in the hearts of all present:

"I would rather be an humble old negro slave, with my liberties circumscribed, and with a conscience void of offense, than to have resting on me the authorship of a book which has brought death and desolation to so many homes in the South, and saddness and bereavement to so many in the North."

The evening closed with the rendering of the "Bonny Blue Flag," which many in the audience had not heard before, and who thank Mr Miller much for an opportunity to hear it.

Candy Stew Last Night.

The hospitable home of Mrs. C. H. Dorsett was the the scene last night of an old time candy stew in which a large number of young people engaged. The prize for the couple who made the best success in pulling candy was hotly contested for. Games were played and a most enjoyable evening spent. The following were present:

Misses Kathryne Jeter, Helen Wheeler, Bertha Wheeler, Nettie Murray, May Harrison, Lola Reid, Minnie Lyon, Mozel Andrews, Lola Carraway, Daisy Carraway, Mary Lindsey, Nan Wood, and Messrs. R. E. Reeves, Lacey Sellers, Charles Murray, Frank Leak, Dr. J. H. Wheeler, Moody Sproud, Eugene McNairy, Rev. Chas. Hodgin, George Patterson, Professor Bradhurst, Frank Eldridge, Dr Edmund Harrison, and Richard Crawford.

THE HAY-PAUNCEFOTE TREATY

REPUBLICANS HOPE IT WILL BE RATIFIED NEXT WEEK.

It Has Been So Changed That Its Friends Will Hardly Know It, But Retains Essential Features.

By Wire to The Telegram

Washington, Dec 15.—It is probable that at today's executive session a date has been set for taking the vote on the Hay-Pauncefote treaty, At least this is the hope of the Republicans who expected to get an agreement before the adjournment yesterday, This was prevented by an objection of Senator Butler, who, for some unexplained reason, desired the debate to run on uncheked a while longer The treaty will be so altered when the amendments agreed to are adopted that its advocates will hardly recognize it, yet they say the essential features have been retained and that it will be ratified next week.

SOLDIERS COMING HOME.

Washington, Dec 14.—The Secretary of War has cabled instructions to Major General MacArthur, at Manila, to begin the work of returning the volunteer troops from the Philippines, in order to permit of their discharge in this country by the 30th of June next This action has been taken in anticipation of the authorization by Congress of the enlistment of regular regiments to replace the re-called troops.

Plans for the organization of the proposed new regiments have been perfected at the War Department and complete arangements made for their speedy recruitment and equipment. Action in this matter awaits only the approval of Congress. It is hoped by the Secretary of War and military authorities that the bill for the reorganization of the army will become a law before Congress takes a recess for the holidays on the 31st inst The records of the Department all tend to show that only a small percentage of the State troops are likely to serve beyond their present term of enlistment.

The plans of the War Department for bringing home the volunteer troops are shown in the following cable messages:

"War Department,
"Adjutant General's Office, Dec. 11.
"MacArthur, Manila.

"Send volunteer convalescents to the capacity of next transport returning, and a volunteer regiment by transport following. As your report 69,000 now, the Secretary of War directs that you start home the volunteer regiments until the force is reduced to 60,000, the number fixed at the beginning of reinforcement by regulars. Will send you regular regiments to further relieve the volunteers.
(Signed) "CORBIN."

"Manila, Dec 13, 1900.
"Adjutant General, Washington.

"With reference to your telegram of toe 11th, the Thirty-seventh Infantry Regiment, United States Volunteers, sails on transport Sheridan, January 1st, and Eleventh Regiment, United States Volunteers, cavalry, on January 15th. The movement will continue as directed till completed. The Thirty-sixth Regiment, United States Volunteers, infantry, is in the field and cannot leave at present. Authority is requested to retain regular officers in the volunteer service, whose regular organizations are here. Also volunteer officers now assigned to special duty who desire to muster out June 30th. An important question of policy is involved, as the departure of volunteers almost renders it impossible to furnish officers for special duty, the necessities for which are increasing. The transport Sherman leaves on December 15th with about 500 volunteer convalescents and the transport Warren on December 22, with the same number. Any remaining will go on transport Sheridan January 1st.
(Signed) "MACARTHUR."

Only $3,500.

Miss C. J. Gorrell tells The Telegram that it was mistaken yesterday in saying that she had recovered $5,000 in her suit against the Greensboro Water Supply Company. After she obtained this judgment, the company appealed, but the suit was compromised before it went to the Supreme Court, and Miss Gorrell received $3,500.

Sermon to Young Men.

Tomorrow night Dr. Smith will preach a special sermon to boys and young men on "Success in Business."

MISS BENEDICT'S RECITAL.

The Euterpe Club and its Friends Enjoy an Evening of Rare Pleasure in the McAdoo Parlor.

The Euturpe Club and its friends spent a very delightful and profitable hour yesterday afternoon in the parlors of the McAdoo, listening to Miss Benedict's well chosen and charmigly rendered program.

The recital consisted of the following numbers:

Beethoven's so-called Moonlight Sonata, Greig's Spring Song, a group of Chopin pieces, Moozkoeki's Caprice Easp gnol, two Novelettes and the Faharp maj, Romance of Schumann's, concluding with Chopin's Polonaise Op 22.

Miss Benedict's clear and intelligent insight into the music she plays enables her to so interpert it that even the musically unlearned can follow with pleasure the thought of the composer Especially fine, was her conception of the B. Minor Novelette of Schuman, and the Chopin Polonaise was performed in a very sympathetic manner.

Miss Benedict's analytic remarks are of much assistance to the audience toward a better understanding of the program.

The members of the Enterpe Club deserve much credit for their efforts to popularize good music, and we are glad to note that they are meeting with appreciation.

United States and Russia Alone Produce Greatly in Excess of Their Demands.

A statement prepared by the United States department of agriculture, showing the wheat crop of the world for the last five years, contains much that is of peculiar interest to Americans, says Youth's Companion.

First of all, it is worth noting that wheat is something the demand for which keeps always abreast with the supply. Year after year the world's crop increases, yet gains in population, improvements in transportation and the growth of commerce enable consumption to keep pace. Last year's crop of almost two and three-quarters billion bushels will be no more than sufficient for use, and necessity reserves during this year.

The continent of Europe produces more than one-half the world's crop of wheat, and North America only about one-quarter; yet Europe is a constant buyer, and North America a constant seller. The one consumes almost the entire world's surplus, the other is the world's great surplus exporter. The contribution of the United States to last year's crop was 20 8-10 per cent., a larger share than that of any other country, Russia, with nearly 18 per cent., being its nearest rival.

The report brings out interestingly the commercial significance of variations in the crop. In 1897, for instance, Europe produced an unusually small proportion of the world's supply, while the United States produced an uncommonly large proportion. This was greatly to our advantage, for the European demand advanced world prices, and we were able to sell our great surplus at profitable figures.

In 1898 and 1899, however, these conditions were reversed. Europe's percentage of the world's crop increased, while ours decreased. The result has been persistently low prices for wheat, in spite of a decided advance in the price of other agricultural products. An increase in the crop of South America and Australasia, most of which goes to Europe, and the abundance of the European rye crop, have also helped to keep the price down.

Ordinarily more than 75 per cent. of the wheat crop of the world is produced in seven countries of the northern hemisphere: the United States, Russia, France, India, Austria-Hungary, Germany and Italy; but of these countries two only, the United States and Russia, produce a quantity greatly in excess of their own demands.

Most bald people are found to lead indoor lives, and almost all of them belong to the intellectual class. Usually the loss of hair begins before the thirtieth year. In woman it usually constitutes a general thinning; in man it affects the top of the head. Diseases that affect the general nutrition of the body are likely to thin the hair.

FOUR COMPANIES CAPTURED.

KITCHENER REPORTS THIS LOSS ALONG WITH THAT OF 18 OFFICERS.

The Boers Still Show That They Are Active—Parliament Dismissed With a Short Speech by the Queen.

By Wire to The Telegram.

London, Dec. 15.—Parliament voted the war funds, and was dismissed today with the reading of the shortest of the Queen's speeches. It is as follows: "My Lords and Gentlemen:—I thank you for your liberal provision which you have made for the expenses incurred by the operations of my armies in South Africa and China."

Lord Kitchener reports eighteen officers and five hundred and sixty men missing from Clement's force. They consist of four companies of Northumberland Fusileers. Judging from the message they were captured by the Boers.

"She's in a terrible predicament."
"In what way?"
"Why, that rich old man that she promised to marry has offered to have his life insured in her favor."
"I should say that was both considerate and thoughtful of him."
"But you don't understand. If his physical condition is such that any insurance company would accept him as a risk she doesn't want to marry him."—Chicago Post.

Of course she knew he was a mean man, but she did not think he was as mean as he proved to be.
"I can see," he said, "where woman in politics would make a very great change."
"Where?" she asked, unsuspiciously.
"Why, if she were given the franchise," he explained, "the proportion of what is known as the silent vote would be considerably lessened."—Chicago Post.

THE NINETY-NINETEEN.

This Interesting Society of Trinity College Celebrates Its Tenth Anniversary—Election of Officers.

Correspondence of The Telegram.

Durham, Dec. 14.—In 1890 there was formed at Trinity College an organization known as "9019." The objects of the society have always remained a profound secret, but it had the endorsement of Dr. Crowell, who was then president, and has continued to have the favor of the college authorities. It is noticed that no student can be a member until he is a Junior, and he must have a high standing in his class. The society has its hall in the fourth floor of Epworth Hall.

Last Tuesday evening "9019" celebrated its tenth anniversary in the college chapel. Prof. W. F. Gill, presided, Dr. J. S. Bassett delivered the opening address, Prof. J. F. Bivins read a poem, and Prof. T. A. Smoot, of Greensboro Female College, delivered the anniversary address. The exercises were very interesting. At the conclusion of the public exercises, the members of the order attended a banquet, served by A. Dughi, of Raleigh, at which a number of young ladies were guests.

The Science Club held its regular meeting last Monday evening. Prof. W. H. Pegram discussed "Some Optical Methods in Chemical Analysis." Mr. F. T. Willis discussed "Recent Progress in Physics."

Mr. F. C. Odell, of the Junior class, will go to Boston during the holidays to represent the A. T. O. fraternity at the congress of that fraternity.

Hon. Kope Elias, of Franklin, a member of the board of trustees, has been on the Park visiting his son, Kope Elias, Jr., and his nephew, C. K. Robinson, a son of the late Lieutenant Governor Robinson.

Misses Mabel Chadwick and Maie Hendren, of the faculty of Greensboro Female College, who have been at the park for several days, have returned to Greensboro.

The literary societies have elected the following officers: Hesperian—President, G. H. Flowers; vice-president, L. A. Rone; secretary, C F. Lambeth; critic, H. B. Asbury; Marshall, Charles Scarlett. Columbian—President, S. G. Winstead; vice-president, L. F Williams; secretary, S. A. Johnson; marshal, C. H. Livengood.

NOW IT IS READY.

SOMETHING NEW AND SOMETHING GOOD.

One hundred rules for the acquirement, development and use of personal magnetism, by Professor MacKnight, in the title of a new work just out. After years of experience, research and study, Professor MacKnight, of the New York Institute of Science, has prepared one hundred rules on the above subject that cover every feature of how to acquire, develop and use that greatest of all personal powers, personal magnetism. This book is concise, simple and to the point. It takes the place of mail courses and also supplies that knowledge gained by personal instruction. Among others it offers the following advantages. It teaches the healthy how to preserve their health, and the sick how to become healthy. It teaches how to cure another who may be suffering from almost any form of indisposition. It teachers the poor lawyer how to become a good one, and a good lawyer how to become a better one. It teaches the poor preacher how to become a good one, makes him magnetic and popular with his people. It teaches the doctor of medicine how to be good. It teaches how to cure bad habits such as morphine, cocaine, liquor, cigarette, snuff and so on. It teaches a poor salesman how to become a good one, and the good salesman how to become a better one. It teaches the cruel husband to become good, and the lazy man to become active. It teaches you how to acquire riches, and how to be successful in business. From this book you can learn the foundation of all scientific knowledge. Every one of the one hundred rules laid down therein is worth the price of the book. It is perfectly applicable to both men and women, young and old alike. It is the finest book of the kind ever offered to the public. It contains the "Science of all Sciences," the foundation of al knowledge. Every business and professional man or woman, every teacher and student cannot afford to be without this book, if they want to be up-to-date.

The regular price is $10, but a special offer is given till January 1, of $5 Additional rates to clubs as follows: Clubs of five, five per cent. discount; clubs of ten, ten per cent. discount; clubs of fifteen, fifteen per cent. discount; and clubs of twenty, twenty per cent discount. Cash must company all orders. Address The Hamner College, High Point, N. C. 15-18-22

Next to the Consumer

is where we stand in the lumber business. At the kicking spot, as it were, in regard to prices.

First comes the owner of the timber. He just woke up to the value of it and wants double last year's prices. Then the sawmill man. He has not been making a fortune and thinks now he should share a little in the general prosperity

They say to us: "We must have so much for our trees and work." After a while it is "up to you." Don't kick. You don't suppose we have nerve enough to put up prices unless they had first been put up on us. No, indeed. But prices are NOT high. They have been to low and are just now getting reasonable. Your children will be glad to build at double the price it now costs you. It is a trite, but true saying, if you want to build, "Now is the time."

And ours is the place to get the stuff.

EVENTS AT BINGHAM SCHOOL.

Closing of the Football Season—Lecture Courses and the Socials.

Correspondence of The Telegram.

Mebane, Dec. 14.—The football season has been a very pleasant one without accident or injury of any kind, The game has also been a great thing for the health, manliness and moral tone of the school. Where the parents disapprove the students are not allowed to play, nor are the boys allowed to play against grown men nor take extended trips, thus the greatest objections to the game are removed The schedule was as follows: Guilford College 34, Bingham 0; Oak Ridge 21, Bingham 0; Chapel Hill High School 6, Bingham 50; Horner School 0, Bingham 0.

The Young Men's Christian Association has just had a visit from Mr. Marks of Elon College. This gentleman, who is a good and earnest man, as well as an attractive and forcible speaker, helped every one by the three addresses made during his stay. The Y. M. C. A. Sunday services are well attended. The programs are made out several months in advance of the meetings, and helpful talks and good singing make the exercises interesting. We feel that the Association has been of real benefit to the school.

The lecture course this year comprises the names of Doctors Taylor, Venable, Smith, Alexander, Hume and McIver, together with Professors Edwin Mims, W. L. Poteat and M. C. S. Noble. At the last Teachers' Meeting an interesting paper was read by A. W. Mangum, the Physical Director, on "Physical Culture."

Mrs. Robert A. Gray, of Roanoke, Va., is now visiting her son, Principal Gray. Misses Mary Belle Hall of Hickory, and Maggie LeGrand, of Charlotte, are also visiting the school. Their presence is giving much pleasure to all. Last Friday night the Kalesthenic and Polemic Literary Societies gave an old-fashioned "candy pulling." The occasion was thoroughly enjoyed by an assembly of sixty or seventy girls and boys and was pronounced the nicest entertainment of the kind ever held at Bingham. Invitations have been issued to a reception to be given by Principal and Mrs Gray next Friday evening at their home to the faculty and students and young ladies of the neighborhood.

The students standing first in their classes in scholarship for the past month are: Messrs. Heath, H., Newsome, Taylor, Seawell. Murray, C., Davant, W., Ross, VanEtten, Finch, Haas, Murray, J., Stewart, Waggoman, McCubbins, Linn, W., Harris, Linn, R., Clark, E., Harward, Crump, LeGrand, Albert, Gant, J., McDonald, Anderson, Barnes, Clifton, Davant, H., Davis, Sterling, Crowder, Croop, Eames, Cartland, Johnson, Sturgis, Hall, Suggs and Clark, C.

VOLCANIC ERUPTIONS

Are grand, but skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them; old running and fever sores, urcers, boils, felons, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains. Best pile cure on earth. Drives out pains and aches. Only 25 cents a box. Cure guaranteed. Sold by C. E. Holton, druggist.

GOOD ADVICE.

The most miserable things in the world are those suffering from dyspepsia and liver complaint. More than seventy-five per cent. of the people in the United States are afflicted with these two diseases and their effects: such as sour stomach, sick headache, habitual costiveness, palpitation of the heart, heart-burn, waterbrash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac.

Grissom & Fordham.

When you need a soothing and healing antiseptic application for any purpose, use the original DeWitt's Witch Hazel Salve, a well known cure for piles and skin diseases. It heals sores without leaving a scar. Beware of imitations. Howard Gardner.

SATURDAY, DECEMBER 15

WILL THEY TAKE IT?

The friends of the effort to raise a fund for the erection of a colonial monument on the Guilford Battle Ground hope to be able to make an announcement shortly that enough subscriptions have been received to assure the success of the monument. As soon as such announcement can be made it will appear in The Telegram, together with the subscribers, and then the list will be kept standing for the additions of gifts from five cents up as high as any one feels disposed to make.

We must look to the future. At our present rate of growth the Battle Ground park will, in a few years, at most, be within a quarter of an hour's ride on a trolly car; it may not be next year, but it will be. It will not only be, if the present effort is kept up, a park of natural beauty, with hill and vale, and grass and trees, but one with monuments and statuary ready prepared, and all with such an historical association, that it will by all odds be the most notable spot in North Carolina; nay, it will be more—the most unique thing of its kind in the country. Where is there another important Revolutionary battlefield thus restored and used as a park, where the charms of nature are ennanced by so rich an historical background? Every monument placed there increases the value of the place and offers more inducements to visitors.

We would not overlook the purely sentimental phase of the Battle Ground question in talking of its future value to the city. Surely it is worth something to stand, understandingly, upon the very spot where a decisive blow was struck for that independence upon which has been reared the grandest governmental structure the world has ever seen. However we may value this spot and its associations, the country at large values them, and would wonder were we not to even over value them. Since the year 1791, when George Washington drove over the battlefield, people have been going to it as a place of historic interest When the park has been beautified to the extent that it can be, and made easy of access, the stream of visitors will be constant. Thus it becomes of material value to us and the more we advertise it and make it attractive, the more valuable does it become to us.

We are quite sure that our people, alive and progressive as they are, will see the necessity for, and take pleasure in, continued improvement of the Battle Ground, till Greensboro shall have the most unique, interesting and attractive suburban park in the country. To the end that they shall have such a place everything has seemed to conspire. Nature has given undulating hills and gushing springs, history has thrown over them a glamour of glory, and those who have heretofore been interested, have brought out and made known both the beauties of nature and the facts of history, and today, in the Guilford Battle Ground park, is presented to the people of thriving, growing Greensboro a very jewel. Will they take it and continue to polished it and bring out its beauties and its value?

We direct attention to the advertisement, taken from the News and Observer, of one Mrs. McRae, her children, and the white spotted head-top of her friend, all furnished by the agrieved husband.

On Sunday week the New York Sun will begin the publication of a number of essays, running one each Sunday till completed, dealing with the progress of the nineteenth century in its various aspects. The following subjects will be treated, each by a distinguished authority:

Literature	Andrew Lang
Medicine	William Osler
Surgery	W. W. Keen
Electricity	Prof Elihi Thomson
Chemistry	Prof. Ramsay
Phyics	President Mendenhall
Archæology	Prof Flinders-Petrie
Naval Ships	Capt Mahan
Warfare	Sir Charles Dilke
Astronomy	Sir Norman Lockyer
Philosophy	Edward Caird
Evolution	Alfred Russell Wallace
Religion	Cardinal Gibbon / Goldwin Smith

What vast progress has the century seen in each of these. In all of them there has been least progress in literature, meaning by that that the century has not produced greater results in the production of pure literature than some of the preceeding centuries. But practically all other of the subjects have been revolutionized in this century, and some of them were scarcely subjects of research before the beginning of the period. More progress, no doubt, has been made in the past hundred years than in all the preceding ones of the Christian era.

A majority of the cotton mill men of North Carolina are opposed to any legislation on the child-labor problem They are nearly unanimous in saying they prefer not to employ little children, but do so at the earnest solicitation of parents, who want their wages. —Charity and Children

The Telegram a few days ago said that it was of the opinion that a majority of the cotton mill men were not opposed to such legislation, it therefore reproduces this statement from Charity and Children in order that its readers may see the other view of the question.

None Like Charlotte and Greensboro.

Dr. Duffy in Wilmington Star.

The writer of this saw Charlotte with but one cotton factory, and that only a spinning mill, and with few other manufacturing industries, while now it has fourteen or more cotton mills and other industries in proportion, which have been stimulated by the cotton mills. He knew Greensboro when it had no industries worth enumerating, while now there is hustling and progress and evidence of thrift and prosperity on all sides.

There are other places in the State which show up well but none that can compare with these two stirring cities, in both of which, especially the latter, the writer of this takes more than ordinary interest. In view of the facts it is easy to understand why they have grown and prospered as they have.

A Minute Description of Mr. McRae's Family Along With That of Their Friend.

Advertisement in News and Observer.

My wife, Lydia McRae, and our theree children, Josie, Mary Jane and Banny, left my home October, the 29th, with John McRae and his three children, all boys. They are all probably in the same town. My wife has warts on ends of her fingers, is thin and tall with scar on face. One of the children, Mary Jane, has one hand burnt. McRae, with whom my wife and children left, is about six feet high, grey spots on top of head. Any information about my wife and children will be rewarded and thankfully received. Address,

MADE RICH BY LOVER

St. Paul Woman Gets $200,000 Left Her by Her Affianced.

Deed to Property in Honduras Made Over to Her by Her Lover on His Deathbed, Ten Years Ago.

Through the publication of a newspaper notice the other day Mrs. H. E. Butterfield, of St. Paul, has discovered that she is $200,000 wealthier than she had imagined. Mrs. H. E. Butterfield was formerly Miss Belle Griffin, of Minneapolis, and in 1890, while upon an excursion to the Pacific coast, she met and became very friendly with another of the party, Thomas P. Harkin, of Boston. Their acquaintance, carried on by means of correspondence, ripened into love and they became engaged. Shortly after the engagement Miss Griffin visited New England with her mother and the wedding was fixed for a few months distant. She then returned home to prepare for the event. Shortly after this Harkin was attacked by severe hemorrhages of the lungs and died.

The night before his death he sent for a lawyer, an intimate friend, and had him execute for his affianced a quitclaim deed to a mining property in Honduras. After Harkin's death the lawyer communicated with the Honduran government officials, and his investigation led him to believe that the mining property was not worth the trouble of filing formal transfer papers, and he let the matter drop. Last winter, however, as the result of syndicate operations, the property greatly increased in value, and the attorney, who is now practicing in Detroit, learned of this fact, and on communicating with the syndicate was offered $200,000 for a quitclaim deed from Miss Griffin. In some manner, however, all trace of that young lady had been lost, and not even the name of her parents or the address at which she had formerly lived could be found.

Mrs. Butterfield, on reading the dispatch printed the other day, at once took steps to establish her identity and will shortly receive the sum which comes to her in so romantic a fashion. Her husband is a clerk in the Great Northern railroad freight office.

8152—Childs' French Dress.
1, 2 and 4 years.

CHILD'S FRENCH DRESS NO. 8152.

Very stylish and attractive are the long-waisted, short-skirted, French dresses, which little children are wearing. They give an entirely new effect to the simple frocks

In this dress ivory foulaad is prettily trimmed with fine Valenciennes lace and insertion. The body is adjusted with shoulder and under-arm seams, closing invisibly at the center back. It is elaborately trimmed with bands of insertion. The neck is completed with a narrow, lace-trimmed collar band.

The comfortable sleeves are gathered top and bottom, the lower edge being finished with a hem, through which elastic is run. The hem is trimmed with lace and forms a ruffle over the hand.

The skirt is made of two flounces, the upper being half the depth of the under. Both are gathered and arranged at the lower edge of the long body, flaring stylishly. The upper one may be omitted, if preferred.

They are finished with narrow lace. Lawn, nainsook, dimity, cashmere or poplin are appropriate fabrics for this mode, wtih lace, embroidery, ribbon or velvet for trimming.

To make the dress for a child four years will require two and one-fourth yards of insertion, and one-fourth yards of edging. The pattern, No. 8152, is cut in sizes for children two, four and six years.

IN WOMAN'S REALM.

The smallest doll in the world is now on exhibition at a doll show in Vienna. It is less than the third of an inch in size, and in spite of its smallness every limb is movable. This tiny doll is a hundred years old, is enclosed in a glass case, and placed among the most interesting exhibits.

The little girls of Vienna have gone quite mad over the show, and the small boys as well. To them the crowning feature of all, is a long table stretching the length of an annex, on which 3,800 toy soldiers are placed. These small, but perfect warriors represent detachments of all the great armies of the world and are clad in their appropriate uniforms. Cavalry, infantry and artillery, wearing the English, French, Spanish, German, Russian, Italian and even Chinese uniforms, are here mobilized and placed battle array.

TWO TRAMPING GOWNS.

It is never too cold for the athletic girl to go on a long tramp, for she realizes that besides the exercises itself a brisk walk these biting days imparts a glow to the cheeks that could not be gained otherwise if all the cosmetics and lotions ever made were brought into use.

So she starts out, dressed warmly in heavy cloth and padded with chamois until there is not left an opening through which the winds or cold might penetrate.

For the girl who prefers smooth effects there is satin-faced covert. This may be trimmed with several rows of braid and interlined with chamois. Underneath the jacket a flannel waist is worn, and it may be parenthetically remarked, that underneath the shirt waist is a chest protector.

Cheviot is also very serviceable for these tramping dresses. They are trimmed with braid, or more fashionably still, with bias bands of satin-faced cloth.

The hair is worn lower, and only those women who do not object to being out of fashion cling to the monumental pomadour.

The part is the thing; on right side, left stde, in the middle—anywhere, so long as it is becoming and is not too pronounced.

The straight-haired girl is more than ever to be pitied, for such fulfillness is an absolute requisite in her up-to-date coiffure, and the delicious fluffy curls around the nape of the neck that are now in vogue are not to be attained through curling tongs; or, at least, if attained, the achievement is a fugitive one, and the last state of that young woman is lamentable.

[CONDUCTED BY THE LOCAL UNION.]

No man can injure others without injuring or imperiling himself. In some way or other injury wrought upon others is sure to recoil upon the hands of those concerned in it. Sometimes it is through the evident relation of cause and effect, at other times it is through the equally evident interposition of the retributive providence of God, whose curse is upon the habitations of evil-doers, and upon all their gains and possessions.

It is not a light thing to incur the wrath of God which is revealed from heaven against all ungodliness. It is not a light thing to brave the judgments of the Almighty which are "true and righteous altogether." He who will not heed God's counsel may be brought to consider and heed his judgments, to bear the rod and him who hath appointed it.

Perhaps in no line of human conduct are the judgments of God more strikingly manifest than in his dealings with men who engage in the traffic of strong drink. In many instances their enormous possessions take wings and fly away; their gains are cursed; their families are ruined by evil habits and associations, constitutions are broken, minds and bodies are wrecked, and sudden and premature death closes the earthly career of men who engage in this horrible and accursed business.

Let a man study this subject in the light of facts easily obtainable and he will find these statements to be true; and if some of the men engaged in the liquor business could be made aware of the facts and statistics which are extant on this subject they would get out of the business as Lot got out of Sodom. Now and then a man gets his eyes open to the true state of the case and makes haste to escapes the clutches of the adversary before it is everlastingly too late.

A POWDER MILL EXPLOSION

Removes everything in sight; so do drastic mineral pills, but both are mighty dangerous. Don't dynamite the delicate machinery of your body with calomel, croton oil or aloes pills, when Dr. King's New Life Pills, which are gentle as a summer breeze, do the work perfectly. Cures headache, constipation. Only 25c. at C. E. Holton's drug store.

RHEUMATISM—CATARRH—DISEASES CURED BY B. B. B.

It is the deep-seated, obstinate cases of catarrh and rheumatism that B. B. B. (Botanic Blood Balm) cures. It matters not what other treatments, doctors, sprays, liniments, medicated air blood purifiers, have failed to do, B. B. B. always promptly reaches the real cause and roots out and drives from the bones, joints, mucuous membrane, and entire system the specific poison in the blood that causes rheumatism and catarrh. B. B. B. is the only remedy strong enough to do this and cure ond so there can never be a return to the symptoms. Don't give up hope, but try B. B. B. (Botanic Blood Balm) or 3 Bs.

For sale by druggists and Howard Gardner, in Greensboro, at $1 per large bottle, or 6 large bottles (full treatment) $5. To prove our faith in B. B. B. we will send a trial bottle free to sufferers, so they may test the remedy at our expense. Address Blood Balm Co., Atlanta, Ga.

DeWitt's Little Early Risers are dainty little pills, but they never fail to cleanse the liver, remove obstructions and invigorate the system. Howard Gardner.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine It quickly cures coughs, colds and all lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. NO RIGHT TO UGLINESS

The woman who is lovely in face form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples blotches, skin eruptions and a wretched complexion. Electric bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run down invalid. Only 50 cents at C. E Holton's drug store.

NEED MORE SCHOOLS.

Deplorable State of Illiteracy Among Porto Rican Children.

Present School System Comprises 800 Teachers and 38,000 Pupils—Those Still Without School Facilities Number 300,000.

M. G. Brumbaugh, commissioner of education for Porto Rico, says the school system now in operation there includes 800 teachers and 38,000 pupils. This is only a beginning, as there are 300,000 children of school age without school facilities, most of whom would enroll if they could. Commissioner Brumbaugh says the hope of the island is in the public schools and that the great illiteracy in Porto Rico must be reduced. The schools are not to be compared with the American systems, but their transformation must be gradual. The report says that the present school law should be wholly abrogated at the coming session of the insular legislature, for many reasons, and a new law passed. A change in the licensing of teachers is needed to protect good teachers "from the competitions and machinations of worthless teachers and from the pernicious interference of politicians." The report urges closer supervision and quotes Dr. Groff, formerly acting commissioner, as saying that the supervisors of the school were at first ex-soldiers, ex-teamsters, ex-packers and other such men, and they had to teach English in addition, but now they are men as qualified as the salary can command and the supervision requires their entire time. There are over 100 American teachers engaged in the schools and the demand is for more, provided they know enough Spanish to instruct the children in their native tongue. One group of these American teachers is denounced, "the seekers after novelty and new experiences, mere adventurers, who imposed upon the administration and the children and who used the salary and position of teacher solely to see a new country for a year and then return. Fortunately these are gone, and the better teachers remain to carry on a really helpful and arduous task. The people of Porto Rico have patiently borne with these adventurers, and quietly longed for their departure."

Thousands of children in this island, says the report, are half clothed, half fed, and half housed. At least 80 per cent. of all the people are illiterate and the crying need is schools to reduce the appalling illiteracy. There are no public school buildings and no public colleges or universities.

ABBEY'S MEDICAL TALKS

Sleeplessness.

At least eight hours sound, refreshing sleep is necessary in every twenty-four. Do you get it, or is your slumber disturbed by restlessness? Do you lie awake counting the hours until early morning, then to fall asleep and be awakened just as you think your eyes have closed? The body and brain require rest. If the body does not get the repose it needs, the system is weakened, and nervous depression with melancholia follow.

ABBEY'S EFFERVESCENT SALT induces sound, refreshing sleep. It goes right to the *cause* of the trouble. It removes the pressure of blood from the brain, and sleep is secured. Abbey's is not an opiate or drug, nor does it stupify. It acts just the other way. Upon awakening you feel refreshed and strong, with clear brain and good appetite and best of all, there is no reaction of any kind.

One-third of your life is spent in bed, gathering strength for the other two-thirds.

Sold by most druggists, or sent by mail.

WINE OF CARDUI

How a Woman Suffers.

HOWELL, IND., Nov. 26.
I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose.
Mrs. MINNIE STODGHILL.

McELREE'S Wine of Cardui

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means agonizing backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhœa. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the Change of Life, this Vegetable Wine is a blessing.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and $1.00. Trial bottles free at C. E. Holton's drug
